PROFESSIONAL SUMMARY

Computer Science Engineering student pursuing B.Tech (Expected Graduation: 2027) with a strong foundation in Software Development, Data Structures & Algorithms (C++), and Artificial Intelligence. Proficient in Java, Python, C++, web development, and machine learning with hands-on experience in developing AI-powered applications using BERT and LSTM. Passionate about building scalable software solutions and solving real-world problems. Seeking Software Engineering and AI/ML internship opportunities.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Mahatma Gandhi Mission's College of Engineering and Technology, Noida
Affiliated to Dr. A.P.J. Abdul Kalam Technical University (AKTU)

- Expected Graduation: 2027
- CGPA: 7.5/10

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

- C
- C++ (Data Structures & Algorithms)
- Java
- Python
- JavaScript

WEB DEVELOPMENT

- HTML5
- CSS3
- JavaScript
- Bootstrap
- Flask

DATABASES

- MySQL
- Firebase (Basic)

AI & MACHINE LEARNING

- BERT
- LSTM
- TensorFlow
- Transformers
- Scikit-learn
- Natural Language Processing (NLP)

TOOLS

- Git
- GitHub
- VS Code
- Eclipse
- Postman

CORE COMPUTER SCIENCE SUBJECTS

Data Structures & Algorithms | Object-Oriented Programming (OOP) | DBMS | Operating Systems | Computer Networks

PROJECTS

CustomerPulse AI – Customer Feedback Analysis System

Python, Flask, BERT, LSTM, TensorFlow, Transformers

GitHub: github.com/adibakhan2324/AI-Customer-Feedback-Analysis

- Developed an AI-powered sentiment analysis system for customer reviews.
- Classified reviews into Positive, Negative, and Neutral sentiments using BERT and LSTM.
- Built a Flask-based web application with an interactive user interface.
- Implemented confidence score prediction and model evaluation using Python and TensorFlow.

Online Library Management System

Java, MySQL

- Developed a library management system with CRUD operations.
- Implemented user authentication and book management.
- Used MySQL for efficient data storage and retrieval.

Weather Forecast Dashboard

HTML, CSS, JavaScript

- Built a responsive weather dashboard using a public weather API.
- Displayed real-time weather information based on user input.

INTERNSHIP

Management & Business Analytics Intern

Multidisciplinary Centre for Artificial Intelligence (MCAI), Jamia Hamdard

5 June 2026 – 10 July 2026

- Worked on an AI-based Customer Feedback Analysis System to derive actionable business insights.
- Collected, cleaned, and analyzed customer feedback data to identify key trends and sentiments.
- Applied business analytics techniques to support data-driven decision making.
- Collaborated with faculty mentors throughout the project development lifecycle.

ADDITIONAL INFORMATION

Date of Birth: 8 October 2004 | Nationality: Indian | Languages: English, Hindi
